I am a freelance Art Director and Prop Master for Feature Films and Television. I have known Chris for many years on the personal level as well as the professional level and this referral is solely based on our Professional relationship. I can say without a doubt what Chris does as an Artist, Graphic Designer/Artist and Web Developer/Designer is off the charts and well received by my colleagues and Producers I have worked with. I have hired Chris for projects in Films and Television where so-called "in-house" graphic designers were supposed to know what they were doing but could not execute. Projects that Chris took the ball and ran with producing pieces that I and my Producers were looking for and he did it with the utmost professionalism and a quick turn-around. Chris is a highly self motivated artist with expertise, experience and needs no supervision. His work speaks for itself. Whomever he works for will not be disappointed and will be very fortunate to have a person with his talents on their payroll.

Chris and I are friends and colleagues. His design and web building skills are excellent. I've referred clients to him when they have asked for services that are outside my wheelhouse. I highly recommend him.
